EDUCATION

Jyothy Institute of Technology, VTU

Thataguni, Bengaluru, 560082

B. Tech in AI/ML, CGPA 7.

July, 2024

WORK EXPERIENCE

Sudeeksha Technologies, Software Developer Intern.

Aug 2024 – Oct 2024

- Developed and optimized **Django REST API** for backend services, improving data processing efficiency.
- Worked on **React.js frontend**, enhancing UI/UX for a smoother user experience.

RidExpress Technologies, Software Developer Intern.

Oct 2024 – Jan 2024

- Built and maintained **Node.js and Express.js** backend, ensuring seamless API communication.
- Designed and managed a **MySQL database**, optimizing queries for better performance.

PROFILE SUMMARY

Aspiring **Django REST API** developer with a passion for building scalable tech products, strong problem-solving skills, and a drive to innovate in the digital space.

- Full-Stack Development:** Proficient in **Django REST API**, **React**, **Node.js**, **Express**, and **MySQL**, with a focus on building scalable and efficient applications.
- Problem-Solving & Innovation:** Passionate about creating tech solutions that **address real-world challenges**, with **strong analytical and logical thinking skills**.

PROJECTS

Pharmacy System: A **web-based pharmacy** management system that allows users to **browse medicines**, place orders, and manage inventory efficiently.

Key Features & Highlights:

- Implemented **Django REST API** for backend operations, ensuring seamless data transactions.
- Integrated **React.js** for an interactive and responsive user interface.
- Designed a **MySQL database** to manage product inventory, orders, and user authentication.

Smart Sentry: A security management system that helps security agencies monitor and manage personnel and incidents effectively.

Key Features & Highlights:

- Developed a **real-time alert system** using Django and WebSocket's.
- Implemented **role-based authentication** to manage different user access levels.
- Designed a **dashboard with analytics and reports** to track security operations.

SKILLS

Backend – Python, Node.js, Express.js, Django, Django-RESTful, Flask, Flask-RESTful.

Frontend – HTML/CSS, JavaScript, React.js, Tailwind CSS, jQuery.

Database – MySQL, PostgreSQL, SQLite.

Version-Control – Git and GitHub.

Deployment – Koyeb, Heroku.
